Owner motivated, recently reduced by 24K from 199K to 175K. This beautifully decorated home sits atop rolling hills overlooking the beautiful beaches of Playa Esterillos on the Central Pacific Coast of Costa Rica. It has virtually everything you need to just relax and exhale all your worldly troubles as you breathe in the healthy rain forest air. As part of an intentional, regenerative and sustainable community, you can delight in living in harmony with nature and your neighbors. You'll enjoy fresh organic foods grown in your own yard as you have over two acres of privately titled land to cultivate your own garden filled with herbs, fruits, vegetables and other exotic plant foods. From the day you arrive, you can enjoy the home's existing bounty of figs, papayas, mangoes, mangosteen, pineapples, plantains, bananas, star fruits, avocados, basil, cardamom, and other herbs and plants, including guanabana and chocolate pudding fruit.
