Property Description

VILLA SHANTI - A unique experience for Body & Soul This outstanding villa is found in a calming and charming neighbourhood on the hill of Pelada where you can hear the ocean sounds and feel the breeze. Villa Shanti is located in a calm section, where you are more protected from dust and car noise. The Villa belongs to a German couple. They got their inspiration from their world trips to Africa, Asia and Polynesia and incorporated this into the architectural and interior design of the Villa. Villa Shanti was built in 2019 by local artisans using an ecological emphasis and traditional building methods. The villa is built to allow cooling cross breezes to waft through the living spaces. The height of the rooms, and the ceiling made of sugar cane guarantee an excellent healthy room climate. These make for excellent conditions to live comfortably both in the rainy season and on hot days. The house has a lot of living space with 2 terraces.
