Property Description

This breathtaking jungle lot offers privacy and gorgeous views of the surrounding mountains and dense flora. Only 1.2 km from the main road of Malpais and 2 km away from the beach, this property is close enough to the nearby amenities while being a comfortable distance away from the business of the town below. Located on the top of a hill, which allows for views stretching across the jungle tree tops. Priced to sell, the 2.3 hectare lot includes various additional flatlands for development. There is even the possibility of an ocean view with a two-story building. Currently the property holds a charming, small 1 bedroom, 1 bathroom home equipped with a kitchen, living room, and A/C unit with space to add onto the home. Electricity is onsite and water is provided by the current owner from a well on the land above. There is the option to create a well directly on the property for additional building purposes.
