Property Description

Beautiful Country Compound located in the cool mountains of Puriscal. This property is 5.4 acres and has two extra flat and ready to build LOTs within its borders with cemented driveways to each one. As the name says there are two waterfalls that are located on each side of the property. It is truly impressive. The wood used for the construction of the house was taken from the property itself, all naturally grown. The property has several fruit trees (Banana, Avocado, Orange, Lemon, Mango, etc..) and newly planted coffee plants. The main focus of the home is its exotic outside living space. Enjoy ocean views from the pool and the patio while you swim or do your yoga classes. Enjoy an open interior design that flows from the front patio with its open double doors all the way to the multi window design kitchen and its large gas stove island. The master bedroom is very large with lots of lighting and areas for your favorite furniture.
