Property Description

This lot is the closest fee-simple titled lot to Playa Negra! You will walk to the beach in under five minutes. This is a rare find in Playa Negra because this lot has ALL the utilities in place to start building today. There is already public water, fiber-optic internet with speeds up to 20mb (not bad for the jungle), electricity, telephone, and decent 3G cel service. You won't likely even need a hard phone line installed. The building footprint for this lot is 70% or approximately 850m²/9000ft². Height maximum will be four stories (9000 x 4 = 36,000ft²!). This lot, because of the public road frontage, has the potential for commercial, residential, or mixed use. One could develop just about any kind of endeavor here outside of large scale manufacturing. The owner is motivated to move this lot. It is listed at a very attractive and low price of \$139K. This price is hard. Playa Negra has long been a haven of some of the best surfers around the planet.
