Property Description

Apartamentos Nuevos Contemporaneos de Una Planta en Torre en Sabanilla. The Vertical Condominium in Sabanilla is a real estate initiative very different from what is currently offered in the East Zone of San José. Located in the vicinity of the Rodrigo Facio university city and near the Universidad Latina, the project is a housing option that combines proximity and privacy. With around 40% of the space allocated to green areas, the project offers the opportunity to live in a privileged place, without the inconvenience caused by crowds but at the same time enjoying an excellent location. The project consists of a 3,329 m2 building, distributed in 4 apartment floors, with 5 housing units per floor and a parking basement. Its internal spaces, of contemporary design, have been conceived to enhance the experience of living in spaciousness and freedom, with really spacious housing units, of excellent quality and very good finishes; that contrast with the commercial that the market normally offers.
